

Civil Engineer / Project Manager

Kiowa Engineering Corporation is looking to hire a Civil Engineer to join our Colorado Springs office as a project manager / engineer. Kiowa has a long-standing reputation of building relationships with our employees and clients, which has allowed us to serve the Colorado front range for over 30 years. We are a small firm offering a variety of challenging civil engineering projects including public and private site development, infrastructure design, drainageway and storm sewer system design, floodplain modeling, stormwater quality and detention design. Our company has a professional, yet flexible work atmosphere with excellent employee benefits. We feel these attributes have led to a high level of employee satisfaction and longevity.

Responsibilities will include:

- Preparation of civil engineering plans and documents.
- Use of Civil3D for design and drafting.
- Project management and client contact with oversight from a senior project manager. Increasing independence and larger projects as the engineer gains more experience and knowledge.

The applicant should have:

- Professional Engineer license along with a minimum of five (5) years of experience in civil engineering and site development design.
- Proficiency with Civil3D.
- Self-motivated individual who can work independently and as part of a team.
- Experience preparing a full set of civil engineering documents.
- Ability to manage time to meet project deadlines with minimal oversight.
- Good communication and technical writing skills.

Benefits

- Health Insurance
- Paid Time Off
- Dental Insurance
- Flexible Schedule
- Life Insurance
- Retirement Plan – Simple IRA
- Professional Development Assistance

Salary to be determined based on the experience of the selected candidate (Range \$85 -110K).
