

Civil Engineer (0 – 4 years of experience)

Kiowa Engineering Corporation is looking to hire a Civil Engineer with 0-4 years of experience to join our Littleton or Colorado Springs team. Kiowa has a long-standing reputation building relationships with our employees and clients, which has allowed us to serve the Colorado front range for over 35 years. We are a small firm offering a variety of challenging civil engineering projects including public and private site development, infrastructure design, drainageway and storm sewer system design, floodplain modeling, stormwater quality and detention design. Our company has a professional, yet flexible work atmosphere with excellent employee benefits. We feel these attributes have led to a high level of employee satisfaction and longevity.

Responsibilities will include:

- Use of Civil3D for design and drafting.
- Prepare civil engineering plans, reports, documents and drainage calculations.
- Work with a project engineer/manager on a variety of projects and tasks.
- Increasing independence as the engineer gains more experience and knowledge.

The applicant should have:

- Bachelor's degree in Civil Engineering
- FE/EIT preferred
- Experience with Civil3D for drafting and design.
- Self-motivated individual who can work independently and as part of a team.
- Work efficiently with direct oversight.
- Attention to detail skills (organizational, time management, analytical thinking, and active listening).
- Excellent timely communication skills with manager and team.

The applicant should have experience with or be willing to learn:

- Site development design
- Hydrologic and hydraulic calculations/design

Benefits

- Health Insurance
- Dental Insurance
- Life Insurance
- Paid Time Off
- Flexible Schedule
- Retirement Plan – 401K with employer matching
- Professional Development Assistance

Salary to be determined based on the experience of the selected candidate (Range \$60k – \$75k).

Please send resume to info@kiowaengineering.com
